SUMMARY

Computer Science and Engineering student skilled in Java development and problem-solving. Strong knowledge of databases (SQL, NoSQL) and cloud computing (AWS). Focused on applying technical skills to real-world challenges.

EXPERIENCES

Full Stack Development

QUICKBIZTECH SOLUTIONS

📅 April 2025 – July 2025 📍 Ghaziabad, Uttar Pradesh

- Worked on a startup project developing a Tally ERP-like software, where I built multiple frontend pages using Angular and implemented services to connect with backend APIs.
- Developed hands-on experience with version control using Git and GitHub, understanding industry workflows and collaboration practices.
- Gained hands-on experience with how backend development works using Spring Boot and learned to manage data interactions using PostgreSQL for smooth and efficient operations.

JOB-ORIENTED VALUE ADDED COURSE

AWS Cloud Computing

📅 June 2024 – July 2024 📍 Mathura, India

- Completed hands-on AWS training where I learned and worked with key services such as EC2, S3, RDS, IAM, Lambda, VPC, and CloudWatch for monitoring, and access management.
- Learned how to use AWS Console and CLI tools to set up resources easily and make operations more efficient.
- Applied the skills learned by creating a small project that involved hosting a website on AWS using a Docker container.

PROJECTS

ADDRESS BOOK WEB APP

- Designed an intuitive and responsive UI, ensuring compatibility across devices and enhancing user experience.
- Managed integration of RESTful APIs and secure authentication workflows.
- Implemented smart duplicate detection to enhance data accuracy and redundancy.
- Added multi-language support to make the application accessible to a wider audience.
- Improved user contact retrieval times by implementing optimized search and filter logic.

Angular • JWT • MongoDB • TailwindCss • Node.js

SKILLS

Java

Object-Oriented Programming

Data Structures & Algorithms

SQL AWS Git GitHub

Spring Boot Docker Linux

Angular Postman HTML

Tailwind CSS

EDUCATIONS

Bachelor of Technology

GLA UNIVERSITY

📅 September 2022 - June 2026

📍 Mathura, Uttar Pradesh, India

Computer Science • GPA: 7.11

Higher Secondary School

R.D NATIONAL & W.A SCIENCE COLLEGE

📅 March 2020 - June 2021

📍 Bandra, Mumbai, Maharashtra

Science & Mathematics • GPA: 93.17 %

CERTIFICATES

AWS Cloud Practitioner Essentials

📅 July 2025 📄 AWS

30 days of Postman for developers

📅 June 2024 📄 Postman

OPEN SOURCE

CONTRIBUTIONS

ng-setup

- ng-setup is a simple and powerful CLI tool.
- It helps developers to setup an Angular project quickly with automatic Tailwind Css configuration.
- npm i angular-setup
- npx ng-setup
